

DEPARTMENT OF PUBLIC WORKS

Bessemer Township

The department of public works is responsible for the maintenance and upkeep of the township grounds, water/sewer, lagoon, garbage services, township hall buildings/shop, janitorial work, park, and ball field. A great asset to the township the two full-time and one part-time employees work diligently to provide the best of service to all the residents. They are also responsible for using their expertise when assessing potentially adverse situations regarding the running of the utilities within the township in conjunction with the Water Department and the GRWA.

For more information on garbage service please contact Jeff Randall or water hook-up, please contact Jean Verbos at the phone numbers below. Click here for a copy of the water hook-up form.
